## Automotive Switches

### Pressure & Vacuum

■ *Low Pressure & Vacuum*  
*Multiple Families*

■ *High Pressure*  
*Multiple Families*

The odds are that Hobbs can meet your switch demands. Our line is quite extensive, but if it is not exactly what your requirements call for, we can modify any existing part or start from scratch

Hobbs has made such custom-built switches for pool and spa applications, powershift transmissions, anti-skid braking systems, excavator hydraulic systems, water pump systems, and dental air compressors, just to name a few

Standard switches from 0.5 to 150 psi range are available with varieties of terminations and connectors. Custom switches can be designed for set points up to 3000 psi

### Product Families

- 5000 Series Low Pressure & Vacuum
- Series III High Pressure
- Series V High Pressure
- 5000 Series High Pressure

### Specifications

- Ultra Duty Pressure Switches  
10-400 psi
- Extended Duty Pressure Switches  
0.5-150 psi
- Extended Duty Vacuum Switches  
1.1-22" Hg
- Extended Duty Piston Switches  
200-1000 psi
- Variable Differential Pressure &  
Vacuum Switches 2-70 psi & 2-22" Hg
