

PREMIUM LOAD WHEELS

Custom Wheels for Custom Needs

We offer the highest performance compounds in the wheel industry. Whatever your need, our solid polyurethane and rubber industrial wear products are designed and manufactured for dependability and performance

Polyurethane & Rubber Press-On Tires

White natural rubber non-mark tires provide great value and have the highest load bearing capability in the industry. A complete range of specialty compounds including traction compounds and UL approved static conductive compounds are available

- Standard Group
- EZ Group
- Premium Group

Polyurethane Load Wheels

Our Standard, EZ, and Premium Groups offer a good, better and best ladder of performance. With over 2 000 wheel specifications available for all types of manufacturers, you can have exceptional load carrying capability or chunk resistance - depending on your needs

- General Group
- Standard Group
- EZ Group
- Premium Group

Premium Casters

Stabilizers for electric pallet trucks, our casters use a urethane spring for shock absorption and to minimize rocking. Linear deflection at large loads and built to eliminate steel bending and minimize welding needs

- OEM fits all types
- Custom casters available

Solutions for all Industrial Uses

Multiple Markets, Endless Possibilities

Material Handling

Solid polyurethane and rubber industrial tires and wheels adhering to stellar OEM standards that are customizable and fit all makes and models

*Press-On Wheels Load Wheels
Casters Wheel Assemblies*

Road Construction

Our drive/idler/bogie tire and wheel assemblies drive most of the new track driven pavers. Our track pads are used on all makes. Finite Element Analysis, CAD design and CNC manufacturing result in the best products available

*Track Pads Cushomatic Wheels
Compactor Blades Press-On Wheels
Wheel Assemblies*

Construction Wear Parts

We pride in our diverse array of products for the construction industry, from compactors to snow plows, we have you covered

*Track Pads
Cushomatic Wheels
Compactor Blades
Wheel Assemblies*

Municipal

Tire design and elastomer selection maximizes worklife and minimizes wear part replacement downtime keeping municipal projects under budget

*Plow Blades Sweeper Shoes
Spinners Cushomatic Wheels
Press-On Wheels*

Mining

With the highest quality stabilizer pads and hose reel drilling equipment as well as complex wheel assemblies, your mining industry needs are engineered precisely

*Wheel Assemblies Elastometers
Cushomatic Wheels*

Manlift

The scissor lift and boom lift equipment in the manlift industry all bear solid, flat-proof tire and wheel assemblies

*Wheel Assemblies
Cushomatic Wheels
Press-On Wheels*

Winter Maintenance

All manufacturers use custom polar edged plow blades and spinners, available with complete customization

*Plow Blades Sweeper Shoes
Spinners Cushomatic Wheels
Press-On Wheels*

Specialty Wheels

Specialty wheels in unique and proprietary designs - tires and wheel assemblies servicing a range of industries

*Wheel Assemblies
Cushomatic Wheels*
